

A little nearer to heaven – Udo Jürgens

Look no further than me.
You`re all that I need, let me be all you`ve dreamed of.
Look no further than me
Make yourself right at home,
might as well cause you`re staying
forever...you hear what I say,
forever...that`s what I said.
Forever...that means that we won`t be lonely again.

Look no further than me.
You`re a part of a team so start thinking in two`s now.
Look no further than me.
I don`t mean for a night of a week, what I mean is
forever... you hear what I said,
forever... that`s what I said.
Amazing you`d ever have thought
together - together.

A little nearer to heaven, almost touching
couldn`t be closer.
Take me, up there, right now.
One word is all you have to say,
then we can fly away.

Look no further than you.
Can`t you see in my eyes that it goes without saying.
Look no further than you.
We`ve a long way to go, come along let`s get started
forever... I heard what you said,
forever... that`s what you said.
Amazing who`d ever have thought
together - together.

A little nearer to heaven, almost touching
couldn`t be closer.
Take me, up there, right now.
One word is all you have to say,
then we can fly away.

Take me, up there, right now.
One word is all you have to say,
then we can fly away.
